Decorating Your ROBBY MINI-CAKE

To make the Robby mini-cake, you will need Wilton Paste Food Colors in Pink, Brown and Golden Yellow. We suggest you color the icing while the cake is cooling.

- Tint $\frac{2}{3}$ cup icing dark brown for Robby's hat, vest and shoes.
- Tint $\frac{1}{3}$ cup icing light brown for Robby's trousers.
- Tint $\frac{1}{4}$ cup icing yellow for Robby's shirt.
- Tint $\frac{1}{8}$ cup icing flesh, using a bit of brown and the merest touch of pink for Robby's face and hand. Tint small amount pink for Robby's mouth.
- Reserve $\frac{1}{4}$ cup of white icing for Robby's hat band.

WITH DARK BROWN ICING

- Use tube 3 and "To Outline" directions, to outline all of Robby's clothing, hand, hat and shoes.
- With tube 16 and "To Make Stars" directions, cover Robby's hat (excluding hat band), vest and shoes with stars.

WITH LIGHT BROWN ICING

- With tube 16, cover Robby's trousers with stars.

WITH YELLOW ICING

- Use tube 16 and cover Robby's shirt with stars.

- With tube 16 and "To Make Stars" directions, cover Holly Hobbie's bonnet, bonnet tie, sleeve and dress with stars. Start on top of cake and fill in small area at a time. Follow contours of cake by making stars along the guidelines (don't cover them). Turn cake so the part you are decorating always faces you. If stars begin losing their shape, the icing has become soft from the warmth of your hand. Take a ten minute break and put the decorating bag and covered icing into the refrigerator.

WITH WHITE ICING

- Use tube 16 and cover Holly Hobbie's pinafore apron, sash and bow with stars.
- Use tube 104 and "To Make Cuff & Skirt Ruffles" directions to add ruffle to Holly Hobbie's skirt and sleeve cuffs.

WITH GREEN ICING

- Use tube 67 and "To Make Leaves" directions to add leaves to bouquet.
- With tube 3 and "To Make Holly Hobbie's Curls & Flower Stems" directions add stems to bouquet.

WITH BLUE ICING

- Use tube 104 and add ruffle to Holly Hobbie's bonnet.

To Make Leaves

To practice making leaves, use $\frac{1}{4}$ cup icing thinned with $\frac{1}{8}$ teaspoon milk. Use tube 67 and hold bag at 45° angle with tube lightly touching surface. Squeeze lightly to let icing fan out a bit, then stop pressure completely as you lift tube away to bring leaf to a point. Practice for a nicely shaped leaf, then scrape icing back into container.
